

FOR IMMEDIATE RELEASE

TekSolv Named Finalist for Southwest & Midcontinent Oil & Gas Awards

Newark, DE — September 2, 2015 — Judges for the Oil & Gas Awards have selected TekSolv as a finalist for the third annual Oil & Gas Awards for the Southwest & Midcontinent region. This award recognizes the outstanding achievements of leading companies within the oil and gas industry. TekSolv has been chosen as a finalist in the following categories:

- *Award for Excellence in Health & Safety - Products*
- *Water Management Company of the Year*

This award is a platform within the oil and gas realm and demonstrates the industry's advancements by commending the efforts of corporations and individuals. It specifically celebrates growth within the key areas of Health and Safety, Operational Excellence, Innovation, Corporate Social Responsibility, and Environmental Stewardship. The Oil and Gas Awards recognize achievements by region, and TekSolv was recently honored as the winner of the Excellence in Health & Safety Award for the Northeast Region in March 2015.

"We are beyond thrilled to be nominated as finalists for these prestigious awards. This recognition is a testament to the daily dedication of our team and we take pride in this honor. It is a great achievement to be among a group of finalists who are making positive advancements in the oil and gas industry," said John Mouser, President of TekSolv.

Finalists, judges, association partners, sponsors and media partners will gather in October 2015 to recognize finalists and winners at the Industry Summit and Gala Dinner in Dallas, TX.

About TekSolv, Inc.
